

NORTHLAKES HIGH SCHOOL
ASSESSMENT SCHEDULES

YEAR 9

2022

ROSA - INTRODUCTION TO THE NSW RECORD OF SCHOOL ACHIEVEMENT

This booklet provides an outline of the school-based assessment program for Stage Five – Year 9. Students and parents should ensure that they understand the procedures, programs and applications of the materials presented.

The New South Wales Education Standards Authority (NESA) and the school places a lot of emphasis on school-based programs. Students should endeavour to do their best in all assessment tasks in order to attain a NSW Record of School Achievement (ROSA).

A ROSA will be available to students who leave school prior to the HSC and after they successfully complete Year 10.

SATISFACTORY COMPLETION OF A COURSE

A student will have satisfactorily completed a course if, in the principal's view, there is sufficient evidence that the student has:

- Followed the course developed or endorsed by NESA.
- Applied himself or herself with diligence and sustained effort to ALL of the set tasks and experiences provided in the course.
- Achieved some or all of the course outcomes.
- Had a satisfactory record of attendance until the final day of Year 10 as defined by the school principal or school system authority. **Students at Northlakes High School whose attendance falls below 85% may be deemed as not having met satisfactory attendance.**

N DETERMINATIONS – NON-COMPLETION OF A COURSE

If a student is at risk of not meeting the requirements and/or of not satisfactorily completing a course, a warning will be given to indicate that the student may be in danger of “non-completion” of a course or courses. Non-completion of a course will result in an N Determination

The school will:

- (a) Advise the student in writing in time for the problem to be corrected and for the student to be able to redeem themselves.
- (b) Request from the student/parent a written acknowledgement of receipt of the warning letter.

Students who are not making a serious attempt at their courses will be interviewed by Head Teachers and/or the Deputy Principal to make them aware of the requirements and consequences.

PROCEDURES FOR ASSESSMENT

1. Students should refer to the **assessment schedules and calendar** that are contained in this booklet and make a note of each of the tasks required of them.
2. Teachers will give students at least **14 days written notice** of the details of the assessment task. This notice will refer to the outcomes to be assessed, the type of task to be completed, and what students need to do in order to demonstrate their achievement of the outcomes.
3. Dates for the **Examinations are firmly set in place**. Students who are unable to complete an exam should contact the school immediately. Absence on family holidays will not be an acceptable reason for missing exams.

4. If a student is absent from school, it is their responsibility to approach their teacher immediately on their return to school, to determine if any tasks were notified during their absence.
5. If a student **is absent from an assessment task**, then:
 - If the absence is **known in advance**, the student should notify their teacher and negotiate a date and time for the task to be completed.
 - Where a legitimate illness prevents the completion of the task, the student must phone the school and leave a message for the teacher. A **Doctor's Certificate** MUST be presented to the relevant Head Teacher on the day of return to school. The Head Teacher will determine the genuineness of the absence and make a recommendation to the teacher concerned with regard to action to be taken.
 - Where 'misadventure' is the cause of the absence (eg family bereavement), then a **letter that fully explains the circumstances** MUST be presented to the Deputy Principal on the day of return to school. The Deputy will determine the genuineness of the absence and made a recommendation to the teacher concerned with regard to action to be taken.
6. If a task is due to be **handed in on a certain day**, then normally it would be handed in on the date and time specified in the assessment notification. A task submitted after this time will be given a mark of zero (0).
7. Students found to be completing assessment tasks by:
 - Non-attendance at scheduled classes during the day
 - Working on tasks during other subject lessons, or
 - Deliberate school absence
 will receive a mark of zero (0) for the task/s.
8. **Malpractice in examinations and/or assessments tasks.** Cheating, plagiarism, copying another student's work, misuse of technology such as apps, translating software or direct copying from website, etc, will be viewed seriously by the school. The student will be interviewed by the Deputy Principal, and an appropriate penalty will be determined. A score of zero (0) may be recorded for a student in an examination or assessment task as a result of malpractice.
9. Use of **electronic means for preparation and submission of assessment tasks.** If a student chooses this medium to prepare assessment tasks and/or assignments, then they must ensure that appropriate backup copies and hard copies are kept well in advance of the due date. Failure of technology (eg corrupt USB's, computer crashes, no ink in printer) without ample evidence of the stages of the 'lost' work is not acceptable as a reason for late or non-submission of work.
10. **Appeals.** If a student feels that his or her mark or rank in an assessment task is incorrect, then they should firstly approach the Teacher or Head Teacher concerned. If the situation is not resolved satisfactorily, the student may appeal to the school's assessment committee for a review of the process. Students should speak to the Deputy Principal as soon as possible regarding any concerns with this issue.

WHAT ARE COMMON GRADE SCALES?

A set of Common Grade Scales is an assessment and reporting tool to assist teachers across the state in making sound and consistent judgments about overall student achievement at the end of a course.

Common Grade Scales are a series of statements that **summarise** observable and measurable features of student achievement and assist teachers to award grades to students based on descriptions of typical achievement from elementary to excellent.

Common Grade Scales describe the main features of typical students' performances at the end of the course. The Areas of Assessment consist of the knowledge and skills objectives from the syllabus.

The five vertical columns in the descriptors describe different levels of student performance. In using these descriptors, schools "match" each of their students to the descriptor column that best fits the student's overall achievement in the course. The corresponding grade for that descriptor is then awarded to the student.

The Common Grade Scales presented on the following page form a generic set of descriptors indicating five levels of achievement. They were used by groups of subject specialists to develop the Common Grade Scales for each course.

HOW THE COMMON GRADE SCALE RELATE TO THE CURRICULUM FRAMEWORK?

In New South Wales the Kindergarten to Year 12 (K-12) curriculum is organised into six stages. Stage 5 includes Years 9 & 10.

At the end of Stage 5, schools are required to make a judgment about each student's overall achievement of course objectives and outcomes in a given course for the purpose of credentialing. The NESA Common Grade Scale for Stage 5 describe levels of achievement that relate to the set of outcomes for this stage in each course.

GRADE	DESCRIPTION
A	The student has an extensive knowledge and understanding of the content and can readily apply this knowledge. In addition, the student has achieved a very high level of competence in the processes and skills and can apply these skills to new situations.
B	The student has a thorough knowledge and understanding of the content and a high level of competence in the processes and skills. In addition, the student is able to apply this knowledge and these skills to most situations.
C	The student has a sound knowledge and understanding of the main areas of content and has achieved an adequate level of competence in the processes and skills.
D	The student has a basic knowledge and understanding of the content and has achieved a limited level of competence in the processes and skills.
E	The student has an elementary knowledge and understanding in few areas of the content and has achieved very limited competence in some of the processes and skills.

<p style="text-align: center;">N</p> <p>Determination</p>	<p>Where "N" appears in place of an A to E grade opposite a course, the student has failed to meet one or more of the following requirements:</p> <ul style="list-style-type: none"> a) followed the course developed by the Board of Studies; b) applied themselves with diligence and sustained effort to the set tasks and experiences provided in the course by the school; c) achieved some or all of the course outcomes.

Outcomes		EN5-1A, EN5-4B, EN5-6C	EN5-3B, EN5-9E	EN5-2A, EN5-7D, EN5-8D	EN5-3B, EN5-5C
OUTCOMES					
EN5-1A	A student responds to and composes increasingly sophisticated and sustained texts for understanding, interpretation, critical analysis, imaginative expression and pleasure.				
EN5-2A	A student effectively uses and critically assesses a wide range of processes, skills, strategies and knowledge for responding to and composing a wide range of texts in different media and technologies.				
EN5-3B	A student selects and uses language forms, features, and structures of texts appropriate to a range of purposes, audiences and contexts, describing and explaining their effects on meaning.				
EN5-4B	A student effectively transfers knowledge, skills and understanding of language concepts into new and different contexts				
EN5-5C	A student thinks imaginatively, creatively, interpretively and critically about information and increasingly complex ideas and arguments to respond to and compose texts in a range of contexts.				
EN5-6C	A student investigates the relationships between and among texts				
EN5-7D	A student understands and evaluates the diverse ways texts can represent personal and public worlds.				
EN5-8D	A student questions, challenges and evaluates cultural assumptions in texts and their effects on meaning.				
EN5-9E	A student purposefully reflects on, assesses and adapts their individual and collaborative skills with increasing independence and effectiveness.

OBJECTIVES

Knowledge, skills and understanding

Students:

Working Mathematically

- develop understanding and fluency in mathematics through inquiry, exploring and connecting mathematical concepts, choosing and applying problem-solving skills and mathematical techniques, communication and reasoning

Number and Algebra

- develop efficient strategies for numerical calculation, recognise patterns, describe relationships and apply algebraic techniques and generalisation

Measurement and Geometry

- identify, visualise and quantify measures and the attributes of shapes and objects, and explore measurement concepts and geometric relationships, applying formulas, strategies and geometric reasoning in the solution of problems

Statistics and Probability

collect, represent, analyse, interpret and evaluate data, assign and use probabilities, and make sound judgements.

Outcomes		5	3, 4	1, 2	1, 2

OUTCOMES

1	<p>Applies knowledge and understanding of scientific concepts to familiar situations. SC5-10PW applies models, theories and laws to explain situations involving energy, force and motion SC5-11PW explains how scientific understanding about energy conservation, transfers and transformations is applied in systems SC5-12ES describes changing ideas about the structure of the Earth and the universe to illustrate how models, theories and laws are refined over time by the scientific community SC5-13ES explains how scientific knowledge about global patterns of geological activity and interactions involving global systems can be used to inform decisions related to contemporary issues SC5-14LW analyses interactions between components and processes within biological systems SC5-15LW explains how biological understanding has advanced through scientific discoveries, technological developments and the needs of society SC5-16CW explains how models, theories and laws about matter have been refined as new scientific evidence becomes available SC5-17CW discusses the importance of chemical reactions in the production of a range of substances, and the influence of society on the development of new materials</p>
2	<p>Applies knowledge and understanding of scientific concepts to problem solve in unfamiliar situations. SC5-8WS applies scientific understanding and critical thinking skills to suggest possible solutions to identified problems</p>
3	<p>Plans and conducts scientific investigations. SC5-4WS develops questions or hypotheses to be investigated scientifically SC5-5WS produces a plan to investigate identified questions, hypotheses or problems, individually and collaboratively SC5-6WS undertakes first-hand investigations to collect valid and reliable data and information, individually and collaboratively</p>
4	<p>Organises and analyses data and evaluates a scientific investigation. SC5-7WS processes, analyses and evaluates data from first-hand investigations and secondary sources to develop evidence-based arguments and conclusions</p>
5	<p>Demonstrates scientific literacy when communicating scientific concepts. SC5-9WS presents science ideas and evidence for a particular purpose and to a specific audience, using appropriate scientific language, conventions and representations</p>

OUTCOMES

Objective 1	Students develop knowledge and understanding of similarities and diversity in Aboriginal identities, communities and cultural expression.
AST5-1	Describes the factors that contribute to an Aboriginal person's identity
AST5-2	Explains ways in which Aboriginal Peoples maintain identity
AST5-3	Describes the dynamic nature of Aboriginal cultures
AST5-4	Explains adaptations in, and the changing nature of, Aboriginal cultural expression across time and location
AST5-5	Explains the importance of families and communities to Aboriginal Peoples
Objective 2	Students develop understanding of the importance of Aboriginal self-determination and autonomy.
AST5-6	Explains the importance of self-determination and autonomy to Aboriginal Peoples' participation nationally and internationally
Objective 3	Students develop understanding of Aboriginal Peoples' ongoing local, regional, national and international roles, and range of relationships with non-Aboriginal peoples
AST5-7	Assesses the significance of the roles of Aboriginal Peoples locally, regionally, nationally and internationally
AST5-8	Analyses the range of relationships between Aboriginal Peoples and non-Aboriginal peoples
Objective 4	Students develop knowledge and understanding of the factors influencing non-Aboriginal peoples' range of perceptions of Aboriginal Peoples and cultures, and the effects of these perceptions.
AST5-9	Analyses the factors that influence – peoples' range of perceptions of Aboriginal Peoples and cultures
Objective 5	Students develop research and communication skills that use appropriate protocols and ethical practices when working with Aboriginal communities.
AST5-10	Identifies and applies appropriate community consultation protocols and ethical research practices to gather, protect and interpret data
AST5-11	Selects and uses a range of research techniques and technologies to locate, select, organise and communicate information and findings

Agriculture 100hr

TOTAL MARKS	100%	20%	30%	20%	30%
Outcomes		2, 3, 4	2, 3, 4	5	1, 2, 3, 4, 5
OUTCOMES					
1	<p>Demonstrates knowledge and understanding of agriculture as a dynamic and interactive system that uses plants and animals to produce food, fibre and other derivatives</p> <p>AG5-1 Explains why identified plant species and animal breeds have been used in agricultural enterprises and developed for the Australian environment and/or markets</p> <p>AG5-2 explains the interactions within and between agricultural enterprises and systems</p> <p>AG5-3 explains the interactions within and between the agricultural sector and Australia's economy, culture and society</p>				
2	<p>Demonstrates knowledge of and skills in the effective and responsible production and marketing of agricultural products</p> <p>AG5-4 Investigates and implements responsible production systems for plant and animal enterprises</p> <p>AG5-5 investigates and applies responsible marketing principles and processes</p> <p>AG5-6 explains and evaluates the impact of management decisions on plant production enterprises</p> <p>AG5-7 explains and evaluates the impact of management decisions on animal production enterprises</p>				
3	<p>Develops an understanding of sustainable and ethical practices that support productive and profitable agriculture</p> <p>AG5-8 evaluates the impact of past and current agricultural practices on agricultural sustainability</p> <p>AG5-9 evaluates management practices in terms of profitability, technology, sustainability, social issues and ethics</p> <p>AG5-10 implements and justifies the application of animal welfare guidelines to agricultural practices</p>				
4	<p>Demonstrates skills in problem-solving, including investigating, collecting, analysing, interpreting and communicating information in agricultural contexts</p> <p>AG5-11 designs, undertakes, analyses and evaluates experiments and investigates problems in agricultural contexts</p> <p>AG5-12 collects and analyses agricultural data and communicates results using a range of technologies</p>				
5	<p>Demonstrates knowledge and skills in implementing collaborative and safe work practices in agricultural contexts.</p> <p>AG5-13 applies Work Health and Safety requirements when using, maintaining and storing chemicals, tools and agricultural machinery</p> <p>AG5-14 demonstrates plant and/or animal management practices safely and in collaboration with others</p>				

Agriculture 200hr

Components	Weighting	Task 1	Task 2	Task 3	Task 4
		Week 11 Term 1, 2022	Week 6 Term 2, 2022	Week 9 Term 3, 2022	Week 6 Term 4, 2022
		<i>Meat Chicken Trial</i>	<i>Plant Production Trial</i>	<i>Tractor Safety</i>	<i>Yearly Examination</i>
Introduction	20%			20%	
Vegetable Garden	30%		30%		
Animal Production	20%	20%			
Yearly Exam	30%				30%
TOTAL MARKS	100%	20%	30%	20%	30%
Outcomes		2, 3, 4	2, 3, 4	5	1, 2, 3, 4, 5
OUTCOMES					

1	<p>Demonstrates knowledge and understanding of agriculture as a dynamic and interactive system that uses plants and animals to produce food, fibre and other derivatives</p> <p>AG5-1 Explains why identified plant species and animal breeds have been used in agricultural enterprises and developed for the Australian environment and/or markets</p> <p>AG5-2 explains the interactions within and between agricultural enterprises and systems</p> <p>AG5-3 explains the interactions within and between the agricultural sector and Australia's economy, culture and society</p>
2	<p>Demonstrates knowledge of and skills in the effective and responsible production and marketing of agricultural products</p> <p>AG5-4 Investigates and implements responsible production systems for plant and animal enterprises</p> <p>AG5-5 investigates and applies responsible marketing principles and processes</p> <p>AG5-6 explains and evaluates the impact of management decisions on plant production enterprises</p> <p>AG5-7 explains and evaluates the impact of management decisions on animal production enterprises</p>
3	<p>Develops an understanding of sustainable and ethical practices that support productive and profitable agriculture</p> <p>AG5-8 evaluates the impact of past and current agricultural practices on agricultural sustainability</p> <p>AG5-9 evaluates management practices in terms of profitability, technology, sustainability, social issues and ethics</p> <p>AG5-10 implements and justifies the application of animal welfare guidelines to agricultural practices</p>
4	<p>Demonstrates skills in problem-solving, including investigating, collecting, analysing, interpreting and communicating information in agricultural contexts</p> <p>AG5-11 designs, undertakes, analyses and evaluates experiments and investigates problems in agricultural contexts</p> <p>AG5-12 collects and analyses agricultural data and communicates results using a range of technologies</p>
5	<p>Demonstrates knowledge and skills in implementing collaborative and safe work practices in agricultural contexts.</p> <p>AG5-13 applies Work Health and Safety requirements when using, maintaining and storing chemicals, tools and agricultural machinery</p> <p>AG5-14 demonstrates plant and/or animal management practices safely and in collaboration with others</p>

AVID Stage 5

Components	Weighting	Task 1	Task 2
		Week 4 Term 2, 2022	Week 4 Term 4, 2022
		<i>Semester 1 Portfolio</i>	<i>Semester 2 Portfolio</i>
TOTAL MARKS	100%	50%	50%
Outcomes		1, 2, 3, 4, 5	1, 2, 3, 4, 5

OUTCOMES

1	Writing – Students will complete extended pieces of writing and take focussed notes using the Cornell notes strategy
2	Inquiry – Students are able to develop higher order questions and participate in a Socratic Seminar
3	Collaboration – Students participate with skill and enthusiasm in weekly tutorials
4	Organisation – Students will show organisation in their bookwork and Tutorial Referral Form preparation
5	Reading – Students demonstrate their ability to use critical reading strategies

Child Studies 100hr

Components	Weighting	Task 1	Task 2	Task 3	Task 4
		Week 8 Term 1 2022	Week 8 Term 2 2022	Week 8 Term 3 2022	Week 4 Term 4 2022
		<i>Research Task</i>	<i>In Class Task</i>	<i>Research Task</i>	<i>In Class Task</i>
Knowledge and Understanding	40%	10%	10%	10%	10%
Investigation and Research	40%	10%	10%	10%	10%
Communication	20%	5%	5%	5%	5%
TOTAL MARKS:	100%	25%	25%	25%	25%
Outcomes		CS5-7, CS5-8, CS5-9	CS5-1, CS5-11	CS5-6, CS5-10	CS5-2, CS5-12

OUTCOMES

CS5-1	Identifies the characteristics of a child at each stage of growth and development.
CS5-2	Describes the factors that affect the health and wellbeing of the child
CS5-3	Analyses the evolution of childhood experiences and parenting roles over time.
CS5-4	Plans and implements engaging activities when educating and caring for young children within a safe environment.
CS5-5	Evaluates strategies that promote the growth and development of children
CS5-6	Describes a range of parenting practices for optimal growth and development
CS5-7	Discusses the importance of positive relationships for the growth and development of children
CS5-8	Evaluates the role of community resources that promote and support the wellbeing of children and families
CS5-9	Analyses the interrelated factors that contribute to creating a supportive environment for optimal child development and wellbeing
CS5-10	Demonstrates a capacity to care for children in a positive manner in a variety of setting and contexts
CS5-11	Analyses and compares information from a variety of sources to develop an understanding of child growth and development
CS5-12	Applies evaluation techniques when creating, discussing and assessing information related to child growth and development

Dance 100hr

Components	Weighting	Task 1	Task 2	Task 3	Task 4
		Week 9 Term 1, 2022	Week 2 Term 3, 2022	Week 10 Term 3, 2022	Week 3 Term 4, 2022
		<i>Practical Assessment of CCDF Audition Dance + Written Safe Dance Practice Task</i>	<i>Composition Task</i>	<i>Appreciation in-class Examination (safe dance practice and history of jazz)</i>	<i>Practical Assessment of Group Musical Theatre composition + Poster/Program Design</i>
Performance	40%	25%			15%
Composition	30%		20%		10%
Appreciation	30%			20%	10%
TOTAL MARKS	100%	25%	20%	20%	35%
Outcomes		5.1.1, 5.1.3	5.2.1, 5.2.2	5.3.1, 5.3.2, 5.3.3	5.1.1, 5.1.2, 5.1.3
OUTCOMES					
5.1.1	Applies safe dance practice to exercises and dance techniques				
5.1.2	Demonstrates an understanding of the elements of dance				
5.1.3	Applies aspects of performance quality and interpretation through performance				
5.2.1	Explores dance as the basis of the communication of ideas				
5.2.2	Composes dance movement that communicates an idea				
5.3.1	Describes and analyses dance				
5.3.2	Analyses the link between performances and dance works of art				
5.3.3	Applies understanding and experiences drawn from their own work and dance works of art

OUTCOMES					
FT5-1	demonstrates hygienic handling of food to ensure a safe and appealing product				
FT5-2	identifies, assesses and manages the risks of injury and WHS issues associated with the handling of food				
FT5-3	describes the physical and chemical properties of a variety of foods				
FT5-4	accounts for changes to the properties of food which occur during food processing, preparation and storage				
FT5-5	applies appropriate methods of food processing, preparation and storage				
FT5-6	describes the relationship between food consumption, the nutritional value of foods and the health of individuals and communities				
FT5-7	justifies food choices by analysing the factors that influence eating habits				
FT5-8	collects, evaluates and applies information from a variety of sources				
FT5-9	communicates ideas and information using a range of media and appropriate terminology				
FT5-10	selects and employs appropriate techniques and equipment for a variety of food-specific purposes				
FT5-11	plans, prepares, presents and evaluates food solutions for specific purposes				
FT5-12	examines the relationship between food, technology and society				
FT5-13	evaluates the impact of activities related to food on the individual, society and the environment

Information Software Technology 100hr

Components	Weighting	Task 1	Task 2	Task 3
		Week 9 Term 1, 2022	Week 2 Term 3, 2022	Week 4 Term 4, 2022
		<i>The Internet & Website Development</i>	<i>Software Development & Programming</i>	<i>Group Project Programming a website</i>
Skills	50%	10%	20%	20%
Knowledge	50%	20%	10%	20%
TOTAL MARKS	100%	30%	30%	40%
Outcomes		5.1.2, 5.2.1, 5.2.2, 5.2.3, 5.3.1, 5.4.1	5.2.1, 5.2.2, 5.2.3, 5.3.1, 5.3.2, 5.5.3	5.1.1, 5.2.2, 5.2.3, 5.5.1, 5.5.2
OUTCOMES				
5.1.1	Selects and justifies the application of appropriate software programs to a range of tasks			
5.1.2	Selects, maintains and appropriately uses hardware for a range of tasks			
5.2.1	Describes and applies problem-solving processes when creating solutions			
5.2.2	Designs, produces and evaluates appropriate solutions to a range of challenging problems			
5.2.3	Critically analyses decision-making processes in a range of information and software solutions			
5.3.1	Justifies responsible practices and ethical use of information and software technology			
5.3.2	Acquires and manipulates data and information in an ethical manner			
5.4.1	Analyses the effects of past, current and emerging information and software technologies on the individual and society			
5.5.1	Applies collaborative work practices to complete tasks.			
5.5.2	Communicates ideas, processes and solutions to a targeted audience			
5.5.3	describes and compares key roles and responsibilities of people in the field of information and software technology			

Japanese 100hr

Outcomes		5.1, 5.2, 5.3	5.4, 5.5, 5.6, 5.7, 5.10	5.1, 5.3, 5.8, 5.9	5.3, 5.11, 5.12
OUTCOMES					
5.1	Performs repertoire with increasing levels of complexity in a range of musical styles demonstrating an understanding of the musical concepts				
5.2	Performs repertoire in a range of styles and genres demonstrating interpretation of musical notation and the application of different types of technology				
5.3	Performs music selected for study with appropriate stylistic features demonstrating solo and ensemble awareness				
5.4	Demonstrates an understanding of the musical concepts through improvising, arranging and composing in the styles or genres of music selected for study				
5.5	Notates own compositions, applying forms of notation appropriate to the music selected for study				
5.6	Uses different forms of technology in the composition process				
5.7	Demonstrates an understanding of musical concepts through the analysis, comparison and critical discussion of music from different stylistic, social, cultural and historical contexts				
5.8	Demonstrates an understanding of musical concepts through aural identification, discrimination, memorisation and notation in the music selected for study				
5.9	Demonstrates an understanding of musical literacy through the appropriate application of notation, terminology and the interpretation and analysis of scores used in the music selected for study				
5.10	Demonstrates an understanding of the influence and impact of technology on music				
5.11	Demonstrates a developing confidence and willingness to engage in performing, composing and listening experiences
